

CONTROL DEFEND SERIES

BW Defend™ is BW Fusion's new biological lineup under the Control Series, delivered at planting for season-long disease and pest protection and enhanced root and shoot vigor.

BW Defend™ combines proven biocontrol microbial technologies, crop-specific biostimulants, and our DUST™ delivery technology into simple, ready-to-use bundles, helping manage insect or disease pressure while supporting stronger establishment from day one for the upcoming season.

DEFEND **FC**

FUNGICIDE CONTROL: CORN

Includes: 601 Biological Fungicide, Corn Biostimulant, and DUST™ Delivery System

Defends Against: Tar Spot, Crown Rot, Southern Rust

Overview: Season-long fungal protection for disease-prone fields, with added root and shoot vigor support.

DEFEND **FS**
